SUMMARY

I'm seeking experience in a fast-paced, high-level company. I work as a Frontend Developer with experience in MERN stack and PHP, specializing in interactive interfaces using GSAP and basic Three.js for 3D rendering. I also have practical DevOps experience, giving me end-to-end development and deployment skills.

WORK EXPERIENCE

Frontend Developer

Jun 2025 - Continue....

Technology Brinz

I am currently working as a Frontend Developer, where I design and implement responsive, user-friendly web applications. My role involves creating interactive interfaces, ensuring seamless performance across devices, and collaborating with teams to deliver high-quality solutions.

Frontend Developer Intern

Feb 2025 - May 2025

Technology Brainz

During my internship, I gained hands-on experience in building responsive layouts and implementing interactive animations using GSAP, enhancing both the functionality and user experience of web applications.

Fullstack Web Developer Intern

Sep 2023 - May 2023

Dynamic Developer

I completed a Fullstack Web Developer internship during my university, where I gained hands-on experience in building basic fullstack applications. My work included developing and managing CRUD operations, connecting frontend and backend components, and understanding the fundamentals of end-to-end web application development.
