AWS/Azure

MY PROJECTS

Ecommerce Website

Portfolio Website

Blog Website

Create VPC with sub-nets and EC2 insctances using Terraform

Automated Deployment Pipeline

Scale an application with Kubernetes

KEY ACHIEVEMENTS

Bachelor degree
Pursuing a Bachelor's degree in Software Engineering

SUMMARY

I am a DevOps Engineer, WordPress G Frontend Developer, and Animations Expert skilled in Docker, Jenkins, Kubernetes, AWS, GSAP, Three.js, and 3D model rendering.
Experienced in streamlining development with DevOps tools, creating interactive web experiences with GSAP, and developing optimized WordPress sites. Holds a Bachelor's in Software Engineering, focusing on cloud technologies and enhancing DevOps collaboration for efficient project delivery.

EXPERIENCE

DevOps Engineering Certification
NexSkill   📅 07/2024 - 10/2024   📍 Lahore

- Completed a 3-month DevOps certification covering Linux, GitHub, Docker, Jenkins, Kubernetes, Terraform, Ansible, and AWS
- Actively practiced DevOps tools and techniques through self-learning on Youtube

Instructor
Skills Way Vocational Institute   📅 06/2023 - 12/2023   📍 Khānpur, Pakistan
- I worked at an institute for over 6 months as an instructor, teaching WordPress website development and creating front-end layouts for web applications.

Intern
Dynamic Developers   📅 06/2022 - 09/2022   📍 Rahimyarkhan
- I completed an internship where I gained experience in web development and created WordPress websites. Additionally, I worked on several WordPress projects for clients.
